

**In The Specification:**

Kindly delete page 5 of the specification and replace it with the attached substitute page 5 which incorporates the examiner's amendment and this supplemental amendment. A marked up copy is attached hereto as exhibit A, and a clean copy is attached hereto as exhibit B.

**REMARKS**

An incorrect figure for the length in millimeters of the flower bud was inadvertently provided to the examiner during a telephone interview on May 16, 2001. The correct figure is **10.3 mm**. The figures of "10.15 mm (.406 inches)" were inadvertently provided to the examiner without deceptive intent. After receipt of the examiner's amendment, it was observed that the figures provided do not match up (i.e. 10.15 mm is *not the same as* .406 inches), leading to an investigation which confirmed that the .406 figure was accurate, and that it converts to 10.3 mm. Thus, the 10.3 mm figure should be substituted for the 10.15 mm figure. The .406 figure remains the same. It is urged that this simple clerical error be corrected for proper disclosure of the invention. No substantial amount of work is required by the PTO to make this amendment.

This amendment is submitted concurrently with the issue fee, so no additional fees or petition are required. The issue fee of \$300 is submitted enclosed.

Request for Copies: This transmittal also includes a request for copies of the patent when issued: 2 black and white copies (\$3.00 each pursuant to 37 C.F.R. 1.19(a)(1)(i)) and 1 color copy (\$15.00 pursuant to 37 C.F.R. 1.19(a)(2)). A separate check in the amount of \$21.00 is enclosed as payment for the copies.
